

## ECOCABLLAVERO

### Cables - USB sets

If you are looking for a useful gift, with space for marking and ecological, here is this practical keychain-set of cables in bamboo and wheat straw. It has all the connectors for current electronic devices, including the lighting connector ( **no MFI**) for models prior to iPhone5.

Its large clean surface allows laser or full color UV logo marking on one or two sides.

**NOTE:** no get confused. There are two similar models on the market. One with plastic connectors and ours, with ecological wheat straw connectors.
