

POWERALL

Power Banks - Power Banks

New 10,000 mAh power bank with all the cables integrated in the case, you don't need to carry any additional cables, you have them all. It also has a standard USB port to connect your own USB cable. With this newly designed power bank, you don't have to worry about carrying extra cables. All are elegantly integrated into the body of the power bank itself, hidden away. No more cables lying around or getting in the way. Perfect for full color UV marking
