

POWERALLPD

Power Banks - Power Banks

Our best-selling power bank charger, now with more power: 22.5W. Power Delivery (PD) technology for faster charges. You will be able to charge your tablet and your phone faster.

On the back it has all the cables necessary to charge any device. You won't need to carry anything else, no more cables.

LCD screen that shows the remaining charge level and practical LED flashlight.

The cable is not MFI and we have detected that the type C cable is not compatible with the new iPhone 15, but it is compatible with the rest of phones with a type C connector
