

I7

Earphones - TWS

i7 mini is a pair of portable TWS wireless BT earphone. True wireless (TWS) BT technology ensures strong signal transmission in high quality & high speed, offering high-fidelity stereo music. Sweat-proof makes it more versatile. Wireless dual ear stereo design, left and right ear channel separation. You can use the left or right ear earphone solely (monaural mode), or use them in pairs (binaural mode). High-sensitivity microphone reduces ambient noises and grasps the detail of voice, ideal for in-car calling or working use. It can simultaneously connect two smartphones, so you can seamlessly switch between your business and personal phones. With a multifunctional button, easy to power on/off, play/pause music, receive/hang up incoming calls.
